TNL*	TASANIOLA QUALITY POLICY	TNL-QMS-PLC-G-001
		Rev.: 02
		Date: 13 Jan 2024

TASANIOLA NIGERIA LIMITED (TNL) is committed to providing Quality Drilling rigs and drilling support services in the Oil and Gas industry.

The top management of TNL is committed to achieving this by:

- Ensuring that Client/Operator's and applicable statutory and regulatory requirements are determined, understood and consistently met.
- The continual improvement of the QMS by ensuring the risks and opportunities that can affect conformity of products and services and the ability to enhance customer satisfaction are determined and addressed.
- Ensuring the focus on enhancing customer satisfaction is maintained.
- Ensuring availability of adequate resources and competent workforce.
- The continual improvement of our services through personnel training, team work and effective communication.

TNL aims to achieve this through the consideration of the internal and external issues that affect its ability to achieve the intended results of its QMS and the monitoring of the requirements of her relevant interested parties. To assist with the above, we have implemented a Management System that meets the requirements of ISO 9001:2015.

This policy provides a framework for setting and reviewing the process-based quality objectives (as referenced in *TNL-QMS-DOC-004*), with performance indicators monitored/evaluated monthly, and maintained as part of the 'monitoring, measurement & analysis' and 'continual improvement' processes. These objectives will also address conformity to TNL products & services stated above, legal requirements and Client/Operator's' satisfaction.

This policy will be communicated to all employees, understood and applied within TNL. All workers are expected to cooperate and assist in the implementation of this policy, whilst ensuring that their own work, as far as is reasonably practicable, is carried out without risk to themselves, others, or the environment. This policy will be reviewed annually by top management and where necessary will be amended and re-issued. Previous versions of this policy are archived and current version is always available to all relevant interested parties through the company's website, company profile and office boards.
